

Purina® All Seasons™ Cattle Nutrition Program

UPDATED!

**Wind and Rain® & Rangeland®
Loose Mineral Formulas**

Our Purina® team is committed to the continuous improvement of our products and programs. Express your herd's full genetic potential with a newly reformulated mineral program focused on building better cattle® for generations to come.

Improvement:

Increased Manganese

Increased Cobalt

Benefit:

While manganese is critical throughout all life stages for growth and skeletal development, formulas will now deliver 25% more manganese to better meet requirements for fetal development and reproduction.

Additional cobalt supplementation to meet latest NRC recommendation for rumen microbial production and vitamin B12 metabolism.
