

Show Goat

Purina® Honor® Show Feed

Show Goat BTW 15 DX TXT

Simply put, if you are striving for the backdrop, Honor® Show Goat BTW 15 DX TXT was made for you. The combination of elevated energy, premium proteins, added palatants and the backing of the biggest names in the Show Goat game makes this feed the ultimate choice for today's competitors.

FEATURE	BENEFIT
Rumen by-pass and degradable proteins	Target muscle development, expression needed in the ring
Purina® patented energy nugget	Designed to provide the fuel needed for proper growth and development of market goats
Palatants	To entice and keep even the pickiest of goats on feed
Peloton® Yeast	Combination of live yeast and MOS optimizes gut health, supports immune function and encourages feed intake
Zinpro® Availa® 4 Minerals	Provides critical, highly bioavailable minerals that help support immune function and hoof integrity
Ambitine®	Proprietary blend of plant extracts and organic acids to help support immune competence and feed intake
Ammonium chloride	Helps reduce the risk of urinary calculi
Medicated with Deccox® (decoquinate)	For the prevention of coccidiosis

Guaranteed Analysis:

ACTIVE DRUG INGREDIENTS

Decoquinatate0.0017%
(7.6 mg/lb)

NUTRIENT

LEVEL

Crude protein, min.....15.00%
This includes not more than 1% equivalent crude protein from non-protein nitrogen.
Crude fat, min.....6.00%
Crude fiber, max8.50%
Acid Detergent Fiber (ADF), max.....8.00%
Calcium (Ca), min0.65%
Calcium (Ca), max1.15%
Phosphorous (P), min0.20%
Salt (NaCl), min.....0.50%
Salt (NaCl), max.....1.00%
Sodium (Na), max0.51%
Copper (Cu), min42.00 ppm
Selenium (Se), min.....0.30 ppm
Vitamin A, min5,000 IU/lb

Medicated:

Medicated for growing and finishing goats. For the prevention of coccidiosis in young goats caused by *Eimeria christensenii* and *Eimeria ninakohlyakimovae*.

Caution: Use as directed. For ruminants only.

Warning: Do not feed to goats producing milk for food.

Directions:

Feed at a rate of 1.49 lbs to goats/kid weighing 50 lbs to provide 22.7 mg decoquinatate per 100 lb of bodyweight (0.5 mg/kg) per day. Feed at least 28 days during period of exposure to coccidiosis or when it is likely to be a hazard.

Important:

In groups of goats there are certain animals that experience chronic bloat, or other digestive disturbances and consequently, are poor performers. In addition, excess feed consumption, severe weather changes resulting in erratic feed consumption and poorly managed feeding practices, can increase the incidence of bloat in all sheep and goats. If bloating occurs, management practices should be reviewed, and your veterinarian consulted. Always provide good quality hay or access to pasture for ruminant animals.

Caution: Store in a dry area away from insects. Do not feed moldy or insect-infested feed. Do not use in feeds containing bentonite.

Reminder:

- Feed is perishable and should be stored in a clean, dry, well-ventilated area so it will remain fresh and palatable.
- DO NOT feed moldy or insect infested feed to animals as it may cause illness, abortion or death.
- Fresh, clean water should be available at all times.

High Octane® supplements are specifically designed for livestock show animals. These supplements are part of the Honor® Show lineup of livestock show products.
